Subject: FW: CWA General Stormwater Permits Question

Patty; can you give me some background on the issue here? Sounds at first blush like maybe WPD coord would be useful?

thanks

Subject: CWA General Stormwater Permits Question

Hi Stephen,

I'm Kelsey and I'm the law clerk currently working on a project involving violations of the CWA / NPDES permits / general stormwater permits for the Freedom Industries spill for Perry McDaniel and the criminal branch and was directed to you to hopefully get some help. Patty suggested that I check in with you to see if you had anyone in your branch with a lot of knowledge in stormwater permits or a program person. I already have the CWA Digest, but it's created more questions for me.

I won't be back in the office until next Wednesday, but any recommendation in the right direction for someone to help with clarification would be incredibly helpful.

Thanks so much for your time!

Kelsey
